* 2020 assets and performance are preliminary.

Baird Mid Cap Growth Equity Composite consists of all fully discretionary mid cap growth equity accounts. We invest in medium sized, high-quality growth companies holding leadership positions within their industries that we believe are capable of producing above average growth in a variety of market environments. The strategy will emphasize companies with a market capitalization between \$2 billion and \$15 billion. To help control risk, the Portfolios are generally diversified among companies in a broad range of industries and economic sectors, with sector limits for any one sector at the greater of 30% of the Portfolio or double the weighting of the applicable sector in the Russell Midcap® Growth Index. Mid-cap companies may be hindered as a result of limited resources or less diverse products or services and have therefore historically been more volatile than the stocks of larger, more established companies. The Russell Midcap® Growth Index measures the performance of the mid-cap growth segment of the U.S. equity universe. It includes those Russell Midcap Index companies with higher price-to-book ratios and higher forecasted growth values. The Russell Indices are a trademark of the Frank Russell Company. Indices are unmanaged, and are not available for direct investment. For comparison purposes the composite is measured against the Russell Midcap Growth Index. Prior to December 31, 2005, Baird Equity Asset Management also presented the S&P 400® Index with its returns. Prior to January 1, 2004, the composite was named the BIM Taxable and Tax-Exempt Equity Mid Cap Composite. The minimum account size for this composite is \$550,000.

Baird Equity Asset Management, formerly Baird Investment Management, claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Baird Equity Asset Management has been independently verified for the periods 1/1/2016 through 12/31/18 by ACA Performance Services, LLC and for the period 1/1/1993 through 12/31/2015 by previous Verifiers. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Baird Mid Cap Growth Equity Composite has had a performance examination for the periods 1/1/2016 through 12/31/18 by ACA Performance Services, LLC and for the period 7/1/1993 through 12/31/2015 by previous Verifiers. The verification and performance examination reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

As of 1/1/2007, the firm is defined as Baird Equity Asset Management (Baird EAM), a department of Robert W. Baird & Co., Incorporated that manages equity and balanced portfolios. Prior to 1/1/2007, the firm was defined as Robert W. Baird & Co., Incorporated. Robert W. Baird & Co., Incorporated is registered as an Investment Advisor. The firm maintains a complete list and description of composites and limited distribution pooled funds and list of broad distribution pooled funds, which are available upon request. Total firm assets reflect the 1/15/2016 acquisition of Chautauqua Capital Management, LLC.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. Beginning 1/1/2012, net of fee performance is calculated using actual management fees. Prior to 12/31/2011, net of fee performance was calculated using the highest fee. The internal dispersion measure presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing investments, calculating performance and preparing GIPS Reports are available upon request. Please refer to the Form ADV for more information about managed accounts, including fees and expenses associated with separate accounts. The material contained herein is not an offer to sell or a solicitation of an offer to buy any security, nor shall any such security be offered or sold to any person, in any jurisdiction in which such offer, solicitation, purchase, or sale would be unlawful under the securities laws of such jurisdiction.

The U.S. Dollar is the currency used to express performance. Pure gross of fee returns are supplemental to net of fee returns. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual fees. Pure gross returns have not been reduced by advisory fees but have been reduced by transaction costs for non-bundled accounts. Bundled fees include all charges for transaction costs, portfolio management, custody and other administrative fees. All bundled fees, except those for portfolio management, are included in the pure gross returns. The percentage of bundled fee assets was overstated in previous presentations and has since been corrected. The composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite for the entire period noted using pure gross of fee returns. Standard deviation is presented as a 3-year annualized standard deviation measure of risk using pure gross of fee monthly returns as of each annual period end.

The management fee schedule is 0.85% on the first \$10 million, 0.70% on the next \$40 million and 0.60% on the balance. All accounts existing prior to 3/31/2013 were grandfathered at their previous fee schedule. Actual investment advisory fees incurred by clients may vary. The Baird Mid Cap Growth Equity Composite was created 6/30/1993 and has an inception date of 7/1/1993.

Debt/Capital ratio is a measurement of a company's financial leverage. Debt/Capital ratio does not include outliers defined as companies with Debt/Capital greater than 500%. **Profit Margin** is a ratio of profitability calculated as net income divided by revenues, or net profits divided by sales. **Revenue Growth** Revenue Growth is the total of operating revenues less various adjustments to gross sales. Revenue Growth does not include outliers defined as companies with Revenue Growth less than -50% and greater than 300%. **Beta** is a measurement indicating the volatility of a manager relative to a chosen market or benchmark. A beta of 1 means a manager has about the same volatility as the market. Higher betas are associated with higher risk levels, while lower betas are associated with lower risk levels. **Information Ratio** is a measure of portfolio management's performance against risk and return relative to a benchmark or alternative measure. **Sharpe Ratio** is a measure of risk-adjusted return. It divides excess return by risk. Excess return is defined as the annualized return of the manager minus the annualized return of the risk free rate. A high value for the Sharpe Ratio is generally considered to be positive. The **Upside Capture Ratio** is used to evaluate how well an investment manager performed relative to an index during periods when that index has risen. The **Downside Capture Ratio** is used to evaluate how well or poorly an investment manager performed relative to an index during periods when that index has dropped. The characteristics and statistical measures used in this fact sheet are not a forecast of the Baird Mid Cap Growth Equity Composite's future performance.

Opinions, where and when expressed, are subject to change without notice. Information was obtained from sources considered reliable, but no representation is made as to its accuracy. The program manager may, to a limited extent, invest in other securities entailing additional risks beyond those highlighted in these profiles. All investments involve risk, including possible loss of principal. There is no guarantee investment objectives will be met. **Performance data quoted represents past performance. Past performance does not guarantee future results.**
