## INVESTMENT OBJECTIVE

The investment objective of the Fund is to seek current income consistent with preservation of capital.

## INVESTMENT PHILOSOPHY

Risk control is the foundation of the Baird Advisors investment discipline. Since interest rates are extremely difficult to consistently forecast over time, Baird Advisors employs a duration-neutral, risk-controlled approach. The duration of the Fund is set substantially equal to the duration of the Bloomberg Barclays U.S. Short-Term Government/Corporate Index, thus helping to ensure a high degree of predictability in tracking benchmark returns.

Incremental value is added through security selection, yield curve positioning, sector allocation and competitive execution of trades.

## INVESTMENT STRATEGY

The Fund normally invests at least 80% of its net assets in the following types of U.S. dollar-denominated debt obligations:

- U.S. government and other public-sector entities
- Asset-backed and mortgage-backed obligations of U.S. and foreign issuers
- Corporate debt of U.S. and foreign issuers
- Money market instruments

The Fund invests primarily in investment grade debt obligations, but may invest up to 10% of its net assets in non-investment grade obligations. Non-investment grade obligations, at the time of purchase, are generally rated at least B or higher by at least one major rating agency or, if unrated, determined by Baird Advisors to be comparable in quality to the rated obligations.

The Advisor attempts to keep the duration of the Fund's portfolio substantially equal to that of its benchmark, the Bloomberg Barclays U.S. Short-Term Government/Corporate Index. The dollar-weighted average portfolio duration of the Fund will normally be more than three months but less than one year during normal market conditions. The Fund may invest in debt obligations of all maturities. The Advisor attempts to diversify the Fund's portfolio by holding securities of many different issuers and choosing issuers in a variety of sectors.

## FUND INFORMATION

	Institutional Shares	Investor Shares
Ticker	BUBIX	BUBSX
CUSIP	057071722	057071714

## FUND MANAGEMENT TEAM

The Baird Ultra Short Bond Fund is managed by Baird Advisors, the institutional fixed income investment management group of Robert W. Baird & Co., Inc. In February, 2000 this team of experienced fixed income portfolio managers formed the investment group within Robert W. Baird. The three founding partners of Baird Advisors who developed and implemented the investment process have been working together since 1979, and continue to lead a very deep and seasoned portfolio management team with uncommon longevity. Each named portfolio manager has over 25 years of experience managing fixed income portfolios.

	Fund Manager Since	Joined Industry
Mary Ellen Stanek, CFA	2013	1979
Gary A. Elfe, CFA	2013	1978
Charles B. Groeschell	2013	1979
Warren D. Pierson, CFA	2013	1985
Daniel A. Tranchita, CFA	2013	1989
M. Sharon deGuzman	2013	1990

<sup>1</sup>The Advisor has contractually agreed to waive management fees in an amount equal to an annual rate of 0.15% of the average daily net assets for the Fund until April 30, 2018. The agreement may only be terminated prior to the end of this term by or with the consent of the Board of Directors of Baird Funds, Inc.

Performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value of an investment in the fund will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. The fund's current performance may be lower or higher than the performance data quoted. Investment results assume all distributions are reinvested and reflect applicable fees and expenses. For performance current to the most recent month-end, please visit [bairdfunds.com](http://bairdfunds.com).

The Fund may invest in mortgage- and asset-backed securities which may be subject to prepayment risk and thus may be more sensitive to interest rate changes than other types of debt securities. The Fund may also invest in U.S. dollar denominated securities issued by foreign issuers which involve additional risks including political and economic instability, differences in financial reporting standards and less regulated securities markets. Non-investment grade bonds involve greater risk of default and bankruptcy than investment grade securities. While the U.S. government has historically provided financial support to various U.S. government-sponsored agencies, no assurance can be given that it will do so in the future if it is not obligated by law. All investments carry risk, including loss of principal. In a rising interest rate environment, the value of fixed-income securities generally decline and conversely, in a falling interest rate environment, the value of fixed income securities generally increase. Indices are unmanaged and direct investment is not possible. MBS – Mortgage-Backed Securities, RMBS – Residential Mortgage-Backed Securities, CMBS – Commercial Mortgage-Backed Securities, ABS – Asset-Backed Securities

<sup>2</sup>The SEC 30-Day Yield reflects the rate at which the fund is earning income on its current portfolio of holdings after expenses.

<sup>3</sup>The SEC 30-Day Unsubsidized Yield reflects the rate at which the fund is earning income on its current portfolio net of any expense waivers or reimbursements.

<sup>4</sup>The "effective maturity" of adjustable coupon bonds will be the next reset date.

<sup>5</sup>The quality profile is calculated on a market value-weighted basis using the highest credit quality rating given by S&P, Moody's or Fitch for each fund security. Ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest).

Baird Funds are offered through Robert W. Baird & Co., a registered broker/dealer, member NYSE and SIPC. Robert W. Baird & Co. also serves as investment advisor for the Fund and receives compensation for these services as disclosed in the current prospectus.
