*Expense Ratio as of 12/31/2016. The Net Expense Ratio is the Gross Expense Ratio minus any reimbursement from The Advisor. The Advisor has contractually agreed to waive its fees and/or reimburse expenses at least through April 30, 2018 to the extent necessary to ensure that the total operating expenses do not exceed 1.20% of the Investor Class's average daily net assets and 0.95% of the Institutional Class's average daily net assets. Investor class expense ratios include 0.25% 12b-1 fee.

Performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value of an investment in the fund will fluctuate so that an investor's shares when redeemed may be worth more or less than their original cost. The fund's current performance may be lower or higher than the performance data quoted. Performance figures assume reinvestment of all dividends and capital gains. For performance current to the most recent month-end, please visit bairdfunds.com.

INVESTMENT PHILOSOPHY

Chautauqua Capital's structure and investment process are designed to generate superior risk-adjusted returns through stock selection skill. This approach emphasizes great, wealth-creating businesses that benefit from long-term trends, possess the sustainable competitive advantages to exploit those trends and can be purchased at reasonable valuations.

To capture the full benefit of stock selection skill, portfolios are invested for the long-term, on a conviction-weighted basis, in a concentrated set of best idea investments.

Risks are managed through care in implementation – with an emphasis on quality, thoughtful diversification, awareness of relevant exogenous factors and the application of a forward-looking valuation discipline.

We believe there is simply no better way to achieve long-term capital appreciation.

ABOUT THE FIRM

Chautauqua Capital Management's investment results date back to the beginning of 2006, when the original portfolios were funded. The investment approach is the global application of a domestic equity approach that dates back to 1987. Chautauqua Capital Management was formed at the beginning of 2009. The investment team invests alongside its clients and every member is an equity owner in the business.

In 2016, Chautauqua became part of Baird, an employee-owned global financial services firm with a demonstrated commitment to asset management. Baird is nationally recognized as a great place to work and fosters a culture based on one powerful principal: putting clients first.

Baird was established in 1919 and in addition to asset management provides private wealth management, capital markets and private equity services to clients around the world.

Investors should consider the investment objectives, risks, charges and expenses of the fund carefully before investing. This and other information can be found in the prospectus or summary prospectus. A prospectus or summary prospectus may be obtained by visiting bairdfunds.com or calling 800-442-2473. Please read the prospectus or summary prospectus carefully before you invest or send money.

The performance of the Chautauqua International Fund is measured against the MSCI ACWI ex-U.S. Index®. The MSCI ACWI ex-U.S. Index® is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets excluding the United States. Indexes are unmanaged and direct investment is not possible.

The Fund's concentration may make the performance of the Fund more volatile than the performance of funds that more closely mirror an index. The fund may invest up to 15% of its total assets in U.S. dollar denominated foreign securities and ADRs. Foreign investments involve additional risks such as currency rate fluctuations and the potential for political and economic instability, and different and sometimes less strict financial reporting standards and regulation.

The Morningstar Style Box reveals a fund's investment style as of 12/31/2016. For equity funds the vertical axis shows the market capitalization of the stocks owned and the horizontal axis shows investment style (value, blend, or growth). For more specific information, see the "Style Analysis" discussion included in the Morningstar Mutual Fund Detail Report disclosure statement produced by Morningstar.

Forward price to earning is a measure of the price-to-earnings ratio using forecasted earnings for the P/E calculation. **Return on equity** is the amount of net income returned as a percentage of shareholders equity. **Price to book** is a ratio used to compare a stock's market value to its book value. The characteristics and statistical measures used in this fact sheet are not a forecast of the fund's future performance.

Baird Funds are offered through Robert W. Baird & Co., a registered broker/dealer, member NYSE and SIPC. Robert W. Baird & Co. also serves as investment advisor for the Fund and receives compensation for these services as disclosed in the current prospectus.
