<sup>(1)</sup> Variable rate security. The rate reported is the rate in effect as of March 31, 2021.

 $<sup>^{(2)}</sup>$  Variable rate security based on a reference index and spread. The rate reported is the rate in effect as of March 31, 2021.

<sup>(3)</sup> Security issued under Rule 144A under the Securities Act of 1933 and classified as liquid under the Fund's liquidity risk management program. Purchased in a private placement transaction; resale to the public may require registration or may extend only to qualified institutional buyers. At March 31, 2021, the value of these securities total \$6,761,205, which represents 0.44% of total net assets.

<sup>(4)</sup> Seven-day yield.

<sup>(5)</sup> Step-up bond; the interest rate shown is the rate in effect as of March 31, 2021.

#### **Baird Quality Intermediate Municipal Bond Fund**

Summary of Fair Value Exposure at March 31, 2021 (Unaudited)

The Fund has adopted authoritative fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion on changes in valuation techniques and related inputs during the period. These standards define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy is organized into three levels based upon the assumptions (referred to as "inputs") used in pricing the asset or liability. These standards state that "observable inputs" reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources and "unobservable inputs" reflect an entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. These inputs are summarized into three broad levels and described below:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Unobservable inputs for the asset or liability.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2021:

	Level 1	Level 2	Level 3	Total
Long-Term Investments				
Municipal Bonds	\$ -	\$ 1,488,964,829	\$ -	\$ 1,488,964,829
Total Long-Term Investments		1,488,964,829		1,488,964,829
Short-Term Investment				
Money Market Mutual Fund	34,276,640	=	=	34,276,640
Total Short-Term Investment	34,276,640			34,276,640
Total Investments	\$ 34,276,640	\$ 1,488,964,829	\$ -	\$ 1,523,241,469

Changes in valuation techniques may result in transfers into or out of assigned levels within the fair value hierarchy. There were no transfers into or out of Level 3 during the reporting period, as compared to the security classifications from the prior year's annual report.
