CHINA M&A MARKET REPORT

The China M&A market report, created by Baird's Global Investment Banking Department, reviews issues relevant to China's economy and cross-border M&A activity while providing comprehensive data on China's M&A market over the past 10 years.

Growth in China's outbound M&A metrics carried into 2016, reflecting a theme that should continue for an extended period. Based on shifts in global capital flows, China should become a larger participant in cross-border M&A, particularly outbound deals, over time.
